Subject: Experimental Revegetation Program 1982 Annual
Progress Report

Dear Mr. Smith:

Attached, please find the above referenced 1982 Annual Progress
Report for your review.

Although our operations have been curtailed, it is Anaconda
Minerals Company's intention to maintain our experimental
revegetation program to fulfill our commitment to mined land
rehabilitation.

Thank you for your assistance and cooperation in developing
our plan for Carr Fork. We are looking forward to a site visit
in the spring to discuss past work and exchange ideas for the
future.

Should you have any questions, please feel free to contact
either myself at the mine site, or Bart Richards at (303-)
(575-4916).

Sincerely,

Bob Frantz
Manager
